

Assignment

Task Description:

Develop automated test scripts to validate the login functionality of our Android and iOS applications.

Requirements:

- Create separate test scripts for Android and iOS apps.
- Android app link
<https://play.google.com/store/search?q=level%20supermind&c=apps>
- iOS app link
<https://apps.apple.com/in/app/level-meditation-sleep-yoga/id1623828602>
- Ensure that the test scripts cover positive and negative test scenarios for the login process.
- Implement assertions to verify the successful login and appropriate error messages for invalid credentials.
- Utilize an appropriate mobile testing framework (e.g., Appium, Espresso, XCTest) for script development.
- Provide clear documentation on how to execute the test scripts and interpret the results.
- Submit the test scripts along with a brief report outlining the approach taken and any challenges faced during development

Submission Deadline: [5 days]

This task will allow us to evaluate a candidate's technical skills, problem-solving abilities, and familiarity with mobile test automation frameworks.
